

How  
about  
these?...

you  
?

PARLIAMENT HAS A DUTY  
TO PROTECT  
ALL HUMAN BEINGS,  
ESPECIALLY THE  
MENTALLY HANDICAPPED,  
THE PHYSICALLY DISABLED,  
SENIOR CITIZENS AND  
UNBORN BABIES.

"...at no time is there any question of preference for the life of the child over the life of the mother...we now as always seek the life, health and welfare of BOTH mother and child."

G. Emmett Cardinal Carter, Archbishop of Toronto.

On January 28, 1988  
the Supreme Court removed  
all legal protection  
for unborn children  
in Canada.

You must act **NOW** to save lives!

Phone or write your M.P.  
and the Prime Minister  
to demand  
full legal protection  
for all unborn babies  
in Canada.

**CANADA'S FUTURE DEPENDS ON YOU!**

Would it  
be all right  
to take the life  
of this  
baby?...

How about  
this  
one?...

**6-7 weeks after conception**

*The baby's heart has been beating for three weeks / all vital organs are present / fingers, feet, toes are developed / arms, legs move / sex can be determined / brain waves can be detected.*

**"Within the sac was a tiny human male swimming extremely vigorously in the amniotic fluid. This tiny human was perfectly developed with long, tapering fingers, feet and toes...The baby was extremely alive and swam about the sac approximately one time per second."**

*Paul E. Rockwell, M.D., describing the baby whose photograph is shown above.*

...or  
this?...

Copyright © 1982 Dr. Rainer Jonas

**8-9 weeks after conception**

*The baby feels touch and is responsive to pain / will grasp an object and make a fist / sucks thumb / swims freely with a natural swimmer's stroke / heartbeat can be heard on ultrasonic stethoscope.*

**"...a baby at two months gestation who can swim or play trampoline inside the uterus is also able to feel something. And particularly because the person is very tiny, you can use a hair and tickle his upper lip and at two months of age he's already able to remove his whole body to escape the stimulation."**

*Professor Jérôme Lejeune, M.D., Geneticist, at the Borowski Trial, Regina, Saskatchewan, 1983.*

...perhaps  
this  
one?...

Copyright © 1982 Dr. Rainer Jonas

**19 weeks after conception**

*The baby weighs about 1 pound / organs maturing astonishingly fast / opens his eyes, perceiving dim light / grasps umbilical cord / mom feels his kicks and punches / he hears and recognizes her voice!*

**"From the moment of conception to the moment of death, the human being is at all times a human person. Personhood is not derived from man-made law and cannot be awarded, diminished, or withdrawn from any human being by act of Parliament or by any judicial action."**

*John B. Shea, M.D. and Arthur Dunn, M.D., to the Members of Parliament and the Government of Canada, February 28, 1988.*
