

You have offended Christ's little ones and shall be destroyed

Great is the cry against this people. Day and night the blood of the innocent cries for vengeance upon you who have prevented their lives. The Eternal Father, God, has heard their cries and seen your determination to stop their lives and sent us to warn you that the sword of His unchanging justice hangs over you and shall fall upon you to your destruction. (1)

We have been sent to reason with words of warning, but The Lord shall reason with you with tempests, earthquakes, and finally devouring fire. For you have poisoned and mutilated your own bodies to defy God's command to multiply and replenish the earth; and this because you believed the deceptions and lies of one who teaches the destruction of the family, by limiting the number of children you will allow God to send to you. (2)

In your rush to stop God from sending more children to you, you became partakers of the greatest of sins, for you shed the blood of your own sons and daughters. It was your duty to uncover the truth hidden by cunning men, that your birth control pills and I.U.D.'s (Intrauterine devices) could also serve the purpose of aborting children after conception and yet you did not care to know. (3)

You have chosen to be led by those who have opened the door, to all manner of sin and iniquity. They have made laws which they knew would lead you to believe you could commit such acts and all would be well. By their fruits you should have known them, for they openly united themselves with those who publicly upheld the most heinous murders and crimes. (4)

These wolves in sheep's clothing and all who have consented to their lies, shall surely find the blood of the innocent in their skirts at the last day.

The following witnesses are provided:

(1) A survey, conducted by, BYU sociologist, Tim Heaton, showed: "Of 20,378 pregnancies charted nationally, 80.5 percent of the mothers had used birth control sometime before conception. That percentage was exactly the same for the 520 pregnancies of Mormon mothers in the survey" (Salt Lake Tribune, 12/5/98, Article, LDS Handbook says family size up to couple, God) This article made it clear that former church barriers to birth control are now removed. For further evidence of this please call the Office of the First Presidency at 1-801-240-1000.

Those living in Utah are well aware that most couples are now heavily using birth control pills and devices, especially after they have had a child or two. Eventually a high percentage choose vasectomies and tubals to ensure that no more children are sent to them. It is astonishing to hear them demand that God does not want them to have any more children, while at the same time they use birth control or mutilate their bodies to ensure no more children are sent. Thus showing no faith that God will simply stop sending children to them and no mutilation or birth control is necessary if He does not want them to have more children.

(2) See "Overpopulation—It's a myth!" at: www.all.org/sitemap.htm Facts: Agricultural improvements in food production have always outpaced population growth; showing a loving Father has always inspired His children so there would be enough and to spare if His children would share. The problem is sharing. All starvation on earth can now be directly linked to carefully planned shortages and purposeful starvation by many of the world's leaders. Thus perpetuating satan's delusions that the world is overcrowded and abortion - birth control, is necessary.

(3) Attorney, Frank Sussman, when arguing on behalf of the, Planned Parenthood Federation of America, during the, Supreme Court, hearings on the Webster Vs Reproductive Health Services, case in 1989, told the justices: "There no longer exists any bright line between the fundamental right that was established in the 'Griswold' (Supreme Court decision on birth control) and the fundamental right of abortion that was established in Roe Vs Wade (the Supreme Court decision legalizing abortion). These two rights overlap. The most common forms of contraception today – IUD's (intrauterine devices) and low-dose birth control pills, which are the safest type of birth control pills available—act as abortifacients. (they cause abortions) ('Excerpts of Arguments Before Supreme Court on Missouri Abortion Law', Washington Post, 1/27/89, for more visit www.all.org/sitemap.htm)

The pill, Depo-Provera, Norplant, the IUD (intrauterine device), and the Morning after pill—These chemicals and devices can act to kill pre-born children in the earliest days of life. It is well known that abortifacient methods of birth control may act to inhibit ovulation and prevent conception. However, most women don't know they also act to alter the lining of the womb so that the implantation of a newly conceived child cannot occur. If the child cannot implant in the lining of the womb to receive nourishment, he dies.

Birth control pills, Depo-provera injections and Norplant implants achieve their anti-fertility effects primarily by causing temporary sterilization, secondarily by causing abortion by preventing the approximately week old human from

successfully attaching or "implanting" into the wall of the mother's womb. That some drugs promoted as contraceptives may really cause abortion has not been clear to many Americans for whom abortion presents serious moral questions. Hundreds of Physicians have signed the following statement: "We, the undersigned physicians, do therefore declare that the pill and similar birth control products act, part of the time, by design, to prevent implantation of an already created human being. These products clearly cause an early abortion and are -despite the semantic gymnastics of their ardent supporters - abortifacient. We further declare that the so - called emergency contraceptive products being promulgated on the American people work in the same fashion and are also abortifacient." To view their further commentary and a list of their names please visit: www.all.org/sitemap.htm

(4) See the endorsement of, Joseph Lieberman, on the back cover of, LDS President, Gordon B. Hinckley's, world wide distributed book: "Standing for Something". Joseph Lieberman, is recognized as a world wide leader in the pro-abortion movement. As a Senator, Lieberman has voted 5 times for the heinous practice of partial-birth abortion (the abortionist delivers a woman's son or daughter to near complete delivery: the neck, shoulders, arms, body, and legs are all OUTSIDE OF THE WOMB. The abortionist then stops the child's delivery at this point the arms and legs of the child can clearly be seen moving back and forth as the child struggles to free themselves from this uncomfortable position. The abortionist then steadies the child and positions the back of the head for access. At this point the abortionist strikes the child in the back of the head with a scissor-like instrument and makes an opening to the brain. Next the abortionist inserts a suction tube into the opening and sucks out the brains of the child, causing the arms and legs of the child to fall limp, as the child is killed). Joseph Lieberman has demanded through 5 votes that this barbaric practice be continued. He has also voted on numerous other measures upholding abortions in America. (see the voting record of, Joseph Lieberman, on abortion. NRLC Press release: Aug. 7, 2000).

Knowing all this, LDS President, Gordon B. Hinckley, included an endorsement of Lieberman on the back cover of his book. **Why? Fact: The Mormon church is pro-abortion, they also allow abortions in the 5 major cases abortions are performed in:** "We make allowance in such circumstances as when pregnancy is the result of incest or rape, when the life or HEALTH of the mother is judged by competent medical authority to be in serious jeopardy, or when the fetus is known by competent medical authority to have serious defects that will not allow the baby to survive beyond birth." (EXACT QUOTE President Gordon B. Hinckley in THE ENSIGN NOV. 1998, PG.71, see also: The Mormon First Presidency's 1998 General Handbook of Instructions, pages 95 & 156, (ph.801-240-1000) Also visit www.castlenet.com/~life4utah for statistics from the Bureau of Vital Records on numbers of abortions performed in these cases.

In a recent debate between Utah candidates for the U.S. Senate, Democratic candidate, **Scott Howell, demonstrated how the Mormon policy on abortion mirrors the Democratic party's position. Howell, stressed that his position mirrored, The Church of Jesus Christ of Latter-Day Saints [mormons], allowing abortions in cases of deformity, rape, incest, and when the life or health of the mother is at risk.** Orin Hatch, (the republican candidate) keyed in on the exception for the health of the mother, describing that as "a loophole the pro-abortion side can just drive a truck through, and they do". Replied Howell, "Senator Hatch, I thought you were of the LDS (Mormon) faith, I just want to make sure that I understand because it is my faith that has taught me about abortion," (Howell is also a Mormon). Hatch agreed that LDS (Mormon) doctrine permits abortions when the health of the mother is at risk. (Salt Lake Tribune, Oct. 17,2000 See also the Tribune article entitled: We are Democrats because we are Mormon) Anyone familiar with abortion arguments in this country can clearly see the Mormon church is absolutely pro-abortion and are using the same language which upholds abortions in the same cases as, Planned Parenthood, and the Democratic party.

"Jane Fonda (an icon for the pro-abortion movement) was the keynote speaker Tuesday night during the annual, Utahans for choice, dinner at the downtown, Double Tree Hotel, which was attended by about 500 members. Utahans for choice, since 1991, has lobbied for pro-abortion laws. The organization mobilized 3,000 citizens to call or e-mail, Governor, Mike Leavitt (a staunch mormon, and a republican) to push for his veto of the, Abstinence-only Sexual Education Bill, that would have forbidden teaching students about abortion/birthcontrol in the classroom. Governor Leavitt did side with the pro-abortionists by vetoing the bill. Fonda called to thank Governor Leavitt for his veto. (see Salt Lake Tribune 04/05/2000)

The Lord Jesus Christ warns; "And whoso shall receive one such little child in my name receiveth me. But whoso shall offend one of these little ones which believe in me, it were better for him that a millstone were hanged about his neck and that he were drowned in the depth of the sea. Take heed that ye despise not one of these little ones; for I say unto you, That in heaven their angels do always behold the face of my Father which is in heaven. (Matthew 18:5&6,10)
